Audi

Manufacturer Compliance Recall issued
 NHTSA #22V901
 Recall #50ZZ SAFETY CERTIFICATION LABEL
 Status: Remedy Available

Locate an authorized Audi dealer to obtain more information about this recall

⊖ [Learn more about this recall](#)

Description: The Safety Certification label (located on the B-pillar) does not have the required weight information/specifications printed on it. This makes the label noncompliant with regulatory requirements. Missing weight specifications can cause someone to overload the vehicle. Overloading a vehicle increases the risk of a crash.

Remedy: Install an overlay (label) containing the correct vehicle weight specifications on the existing safety certification label.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
